imagination on print**

Our Services

We provide all our clients with invaluable services, what started as litho printers has over the years expanded to full on digital printing company. We pride ourselves in quality workmanship and dedicated to client satisfaction

PRE PRESS

The Pre-Press procedure takes place between print layout and final printing. This could include typesetting, copy-editing, markup, proofing, proofreading, screening, imposition, manufacturing of plates, and the creation of a high-quality print file

LITHO

Litho printing, involves printing from a plate, to various different paper substrates. Litho printing is ideally suited for cost-effective high-quality printing.

DIGITAL

Combination Printers and Projects is able to provide on-demand printing solutions, quick turnaround times, from small to large print runs at a reasonable price, for both narrow and large format digital printing. Digital can save money and time when you need a small job done fast, but right the first time

POST PRESS

At Combination Printers and Projects, we ensure that the efficiency and quality of pre-press and litho production carries over into post-press production as well. Post-Press is a critical part of the printing process – taking place after printing, it affects the final look and feel of the printed product. Our finishing solutions are on par with international standards and include the latest technology in binding, die-cutting, foiling, embossing, mounting and more

Legendary Services

Our system is simple and focused for maximum client benefit. Each client is allocated an experienced Account manager, who acts as your Project Manager. They are supported by a dedicated internal assistant who is always available to answer queries who will see your job through from pre-press to final delivery. We are truly here for you. You can rely on Combination Printers and Projects to be professional, reliable, solution-drive, and understanding of your unique challenges.
